

Revitalize

My Filler's "New Life to the Skin" widens its application horizons and creates **My Filler "Revitalize"**, the special line of products for Mesotherapy procedures.

My Filler Revitalize is a state-of-the-art range and complete portfolio of sterile topical cosmetics for professional use.

MyFILLER Revitalize Slim

Poor diet, lack of exercise and stress are the main reasons of excess fat accumulation. It has become one of the main requests for an aesthetic treatment. **Revitalize Slim** new lipolytic and anti-cellulite formula is composed of an insulin-like growth factor, phosphatidylcholine, sodium deoxycholate, carnitine and trace elements.

Revitalize Slim

REVITALIZE PROTOCOL

1. Clean, sterilise and applied anaesthetic topical cream to the chosen area to be treated.
2. After 30-60 minutes check if the area is numb. Remove topical cream with gauze and warm water. Exfoliate the area with a double cleanse, sterilise area and blot dry. Protect patient using appropriate means of covering like gauze, micropore tape and head-band.

3. Select chosen mesotherapy product and draw down 1ml into sterile container

4. Apply the product at area being treated with a cotton bud or gauze.
5. Choose depth on Revitalize Pen to maximum depth for the areas following (1mm face and 2-2.5mm body) and begin to stamp the mesotherapy product into the skin covering all areas.
6. Apply another layer of mesotherapy product.

7. Reduce Revitalize pen depth to half previous chosen. Create rows vertical and horizontal to cover all the areas.
8. Apply another layer of mesotherapy and repeat using 's' sweeping motions with the Reduce Revitalize to cover all areas.
9. Apply the remaining mesotherapy product liberally all over with cotton bud or gauze.

10. Blot the area dry with a tissue.
11. Apply moisturiser and/or SPF cream.
